New Delhi , India

## PERSONAL PROJECTS

### Amazon Clone

▫ In this project , I have tried to clone the frontend part of amazon website. I have used React JS, HTML CSS, Bootstrap in this project.

Source Code:- <https://github.com/Sagarbika18361/AmazonClone>

### My Portfolio Website

▫ In this project, I have created my responsive Portfolio Website using React JS , HTML,CSS, Media Queries Bootstrap , where i have also mentioned other information related to me.

Source Code:- <https://github.com/Sagarbika18361/React-Responsive-Portfolio>

### CRUD Operations Using ReactJS

▫ CRUD stands for Create, Read, Update, and Delete. React JS is one of the most used JavaScript libraries for frontend development. It is very important to have the basic functionality of CRUD operations in with React JS. In this project, I haven't used any JSON-server or Axios for performing the CRUD operation. We will use a simple JavaScript object to do so.

Source Code:- <https://github.com/Sagarbika18361/React-CRUD>

### CRUD Operation with React and Redux-Toolkit

▫ CRUD stands for Create, Read, Update, and Delete. In this project, I have used Redux-toolkit for performing the CRUD operation.

Source Code:- <https://github.com/Sagarbika18361/CrudReduxToolkit>

### React Weather App

▫ I created this Weather App using React JS , HTML,CSS ,Bootstrap and OpenWeatherAPI This Weather App Allows you to make a search for the current weather by simply typing for example city name

Source Code:- <https://github.com/Sagarbika18361/React-Weather-App>

### Cafe Project

This is my first project in which I have used HTML , CSS only

Source Code:- <https://github.com/Sagarbika18361/cafeProject>

For more projects :- <https://github.com/Sagarbika18361>
